

MEYERS STAR HITTER OF AMATEUR LEAGUE

Montclair Pitcher Smashes Ball at .538 Clip in Five Games.

SEVEN CRESCENT SLUGGERS

With Randy Sides Leading, They Average More than .300 and Pull Team Batting Away Up.

The fifth season of the Amateur Base-ball League, which was concluded a fortnight ago, was the most successful the league has enjoyed. Batting honors of the organization were carried off by Meyers, the Montclair Athletic Club twirler, who batted for an average of .538 in five games.

Donald Mackay, the old Yale twirler, who wore a Crescent Athletic Club uniform, is eleventh on the list, with batting record of .500. Howe, of the South Orange Field Club, tops the list of players who participated in at least two-thirds of the season's games. Howe in seven contests, in twenty-eight visits at bat, made a round dozen hits for an average of .433. Kane, the Montclair Athletic Club captain, has a mark of .406.

The Crescent Athletic Club, which de-throned the four-time champion South Orange team, accomplished the trick principally by terrific hitting. Seven of the new champions were won by Randy Sides, the old Princeton captain, who played in eight games and whaled the ball for a .371 percentage. Sides made thirteen hits in thirty-five trips to the plate, and scored eight times.

The Montclair Athletic Club had five men in the .300 column, the 7th Regiment four, the Englewood Field Club and the Commonwealth Club three each and the South Orange Field Club only two. Wood, Hohmann and Mackay, the trio of pitchers who did the heavy work for the Crescent Athletic Club during the campaign, head the list of pitchers. Wood has four straight victories, in which his opponents scored twenty-one hits. He struck out sixteen batters, Hohmann and Mackay each won three games. Hohmann allowed twenty-one hits and fanned twenty-eight batters. Mackay was found for twenty-five hits and struck out only twelve opponents.

Swenson, of Englewood, played in eight games, and was largely responsible for his team finishing in second place. He pitched six of the seven games which his team won, and his average is .700. Swenson allowed an average of almost six hits to a game, and struck out forty-two batters. He twirled two three-hit games. The batting averages, pitchers' records and team batting follow:
